43-3 E. Hamburg St. (South side)

Baltimore, Md.

Private access

The entire south side of the unit block of E. Hamburg St. (except for 3-7 E. Hamburg St., west of Patapsco St.) is improved with groups of two and a half story, late Federal style brick houses built in the late 1830's and early 1840's by John S. Gittings and several other local carpenters to whom he sold lots. 3-7 E. Hamburg St. are two story, two bay wide gable-roofed brick houses built in the 1850's for working class tenants. They are quite similar to other two story houses lining Patapsco St. just to the south of these houses. A number of houses on this side of Hamburg St. are currently being renovated.

### DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story brick house with gable roof was built in the 1840's by the same builder who constructed the adjoining houses at 5-7 E. Hamburg St.

The house is two stories in height, 13' wide, and occupies a lot 34' deep. The house is one room deep and there is a two story high, three bay deep rear addition. The house is constructed in common bond. The low-pitched gable roof has a two-tier brick cornice. There are no extant roof chimneys.

All of the door and window openings originally had splayed brick lintels and wood sills. The first floor openings, however, have been lowered to street level and the area above the present openings has been filled in with new brickwork. The first floor openings currently have no lintels. The first floor window is filled with a 1/1 sash and the second floor windows are filled with the original 4/4 double hung sash. There is a modern flush door. The house originally sat on a low basement, the entrance being reached by two or three stone steps, as at 7 E. Hamburg St. Now the entrance is reached directly from the sidewalk. A flat-roofed alleyway runs back beneath the easternmost bay of the house.
